

Module 1 Overview

Review (Chapter 0)

Module Intro

This module will review important math concepts that you will need in this course. This material was covered in CMSC 302 and is reviewed in Chapter 0 of your textbook. You will also complete your first reflection for this course.

Objectives

The goal of this module is to provide a review of the math you will need and ensure you are familiar with the course syllabus. You will also reflect upon your goals for the course.

Readings & Resources

You can explore this module's information in multiple ways:

- View slides
- Attend our first class meeting or view the video posted of that meeting
- Access this information from the textbook (**Chapter 0**) [Course Textbook](https://viriniacommonwealth.instructure.com/courses/119232/pages/course-textbook)
(<https://viriniacommonwealth.instructure.com/courses/119232/pages/course-textbook>)

Module at a Glance

Below is an overview of this module. Pay particular attention to items with **points values** and **due dates**, as these are graded assignments. (Note: module overview will not display if you are accessing Canvas on a mobile device.)
