EDUCATION

Virginia Commonwealth University

Master of Science in Computer Science

Richmond, VA

Dates TBD

Virginia Commonwealth University

Bachelor of Science in Computer Science; Minor in AI

Richmond, VA

Aug. 2023 – Dec. 2026

- Concentration in Software Engineering

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, SQL, HTML/CSS, REST APIs, Git/GitHub, Jira, Figma

Soft Skills: Communication, collaboration, attention to detail, adaptability

EXPERIENCE

Programming Instructor | CodeWizardsHQ

June 2024 – July 2025

Remote

- Facilitated remote lessons in Python and JavaScript, maintaining engagement and feedback.
- Led structured problem-solving and debugging exercises to reinforce analytical thinking.
- Earned "Outstanding Instructor" status for communication and leadership.

PROJECTS

Capstone: GitHub-Jira Automation Bot | *Python, REST APIs, Agile*

Sep 2025 – Present

- Developed a Python bot to automate issue tracking by integrating GitHub with Jira for Capital One.
- Programmed API calls to sync pull requests and issue statuses, improving visibility.
- Implemented logging and validation to ensure 100% data integrity across platforms.
- Created dashboards to visualize project metrics and monitor sprint completion rates.

Health & Nutrition Relational Database | *Python, SQL*

Jan 2025 – Present

- Designed a relational database for nutritional data, simulating a SaaS inventory system.
- Developed SQL queries for recipe recommendations, shopping lists, and nutritional summaries.
- Built Python scripts for data cleaning and calculating aggregate nutritional values.

LEADERSHIP & ACTIVITIES

Robotics Team (VEX V5)

Sep. 2019 – June 2023

Captain & Member

- Led team in robot design and testing; advanced to state-level competition in 2022.
- Engineered mechanisms using iterative prototyping and stabilization testing.

Emerging Leadership Program

Aug. 2023 – Dec. 2023

Participant

- Collaborated with student leaders to improve campus awareness of dining resources.

CS Mentorship Program & First Gen Student Org

Sep. 2023 – Dec. 2024

Mentee & Member

- Implemented Git/GitHub workflows for version control and coding practices.
- Attended workshops on career readiness and identity as a first-gen student in tech.
